### Horse Diseases

Horse vaccines protect horses against deadly respiratory and neural diseases, like strangles and equine west Nile virus. Learn which

ones you can give yourself to save time and money. Learn which ones you can give yourself to save time and money.

Knowledge is the key to prevention. Here are some of the most common horse diseases: Potomac Horse Fever. This disease is most often seen in spring, summer, and early fall and is associated with pastures bordering water sources such as creeks or rivers. PHF is an acute enterocolitis syndrome producing mild colic, fever and diarrhea in horses of all ages, as well as abortion in pregnant mares.
