W. W. Norton & Company is proud to present the Sixth Edition of The Norton Sampler. As a rhetorically arranged collection of short essays for composition, our Sampler echoes the cloth samplers once done in colonial America, presenting the basic patterns of writing for students to

once practiced their stitches and ABCs on needlework samplers. This new edition shows students that description, narration, and the other patterns of exposition are not just abstract concepts used in composition classrooms but are in fact the way we think--and write. The Norton Sampler contains 63 carefully chosen readings--classics as well as more recent pieces, essays

along with a few real-world texts--all demonstrating how writers use the modes of discourse for many varied purposes.

Edition, Tenth Edition integrates four different approaches to argument: the enthymeme as a logical structure, the classical concepts of logos, pathos, and ethos, the Toulmin system, and stasis theory. Focusing on argument as dialogue in search of solutions instead of a pro-con debate with winners and losers, it is consistently praised for teaching the critical thinking skills needed for writing arguments. Major assignment chapters each focus on one or two classical stases (e.g.

definition, resemblance, causal, evaluation, and policy). Each concept is immediately reinforced with discussion prompts, and each chapter ends with multiple comprehensive writing assignments. This brief version contains exemplary readings within the chapters but excludes the anthology included in the comprehensive version. Also available in a Comprehensive version (032190673X) and a Concise version

(0321964284) which is a redaction of the Brief edition. * The 8th Edition introduces sweeping changes to the philosophy and details of MLA works cited entries. Responding to the increasing mobility of texts, MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes, then, align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following. "
